

La Cascata di Begna

The collage features several photographs: a large waterfall cascading over rocks into a pool; a stone well with an arched opening; a church with a bell tower; a building with a red facade; and another church building. The central map is a topographic map showing a red route starting from Begna, passing through Palo, Lido, and Croto Darna, ending at the Cascata di Begna. The map includes elevation contours (200, 275, 277, 279, 283, 286, 290, 400, 424) and labels for 'Torrente Cuccio', 'Croto Calbiga', and 'Croto Darna'. A legend in the bottom left corner provides details about the route.
